

Closing Disclosure

INSTRUCTIONS: First, fill out home purchase details in yellow shaded cells immediately below. Be sure to pay attention to dollar amounts vs. percentages.
 Second, analyze "projected payments" to find the total monthly cost of the home purchase.
 Third, go through the remaining closing items on the details pages and fill out as much as possible. If you do not have any experience buying a home, you may want to consult with a mortgage broker (or even your real estate agent can help!) to get an estimate of these fees. If you've previously purchased a home, it will be helpful to use your previous closing statement to estimate these costs (especially if it's in the same state).
